

Lucas Bueno Cesario | Full Stack Java Developer

Spring Boot | React/Angular | AI-Assisted Development

LinkedIn: linkedin.com/in/lucasbc92 | **GitHub:** github.com/lucasbc92 | **Email:** lbc92@hotmail.com

ABOUT

Full Stack Java Developer with 7 years of experience, specialized in back-end with Spring Boot and front-end with React and Angular (JS/TS). I've designed and delivered microservices architectures processing millions of daily transactions, across SQL and NoSQL databases and cloud platforms (AWS, GCP, Azure). I embrace AI-assisted development with Spec Driven Development (Cursor, Claude Code).

HARD SKILLS

- **Measurable impact:** financial microservices processing millions of daily transactions at Magalu; churn prediction tool (Machine Learning) that reduced churn at PariPassu by 18%; a Virtual Threads (Java 21) optimization that cut the import of ~100k invoices at Magalu from several minutes to about one minute; and 90–100% test coverage for critical services.
- **AI-assisted development:** Spec Driven Development with AI agents (Cursor, Claude Code), applying brainstorming, plan-writing, and plan-execution workflows to increase delivery predictability and quality.
- **Domain coverage:** loyalty programs (Vivo Valoriza), financial systems (InvoiceCon; tax reform), agribusiness (food quality inspection), and public safety (web monitoring).

SOFT SKILLS

- **Problem Solving Under Pressure:** rotating N3 support and "firefighter of the week" roles, resolving critical incidents to maintain production system stability
- **Adaptability:** effective transition across technologies and domains; quick adoption of new tools into the workflow, including AI agents
- **Fast Learning and Proactivity:** accelerated mastery of new stacks and anticipation of problems
- **Teamwork and Communication:** agile collaboration, mentoring peers, and active documentation

PROFESSIONAL EXPERIENCE

Full Stack Java Developer

Zukk Tecnologia | *Remote* | Nov 2025 – Jun 2026

- Refactored the Vivo Valoriza web administration system (the benefits program within Vivo's app), modernizing a distributed architecture with Java microservices, a BFF (Backend for Frontend) layer in Nest.js, and React micro front-ends.
- Adopted Spec Driven Development with AI agents (Cursor and Claude Code) and the Superpowers plugin, applying brainstorming, plan-writing, and plan-execution workflows to increase delivery predictability and quality.

Stack: Java, Microservices, Nest.js, BFF, React, Micro Front-ends, TypeScript, Spec Driven Development, Cursor, Claude Code, RESTful APIs, Git

Full Stack Java Developer

Cast Group | *Remote* | Aug 2025 – Nov 2025 (3 months)

- Worked on InvoiceCon, an electronic invoicing (NF-e) solution, with Java Spring on the back-end and Angular on the front-end, contributing to the system's migration to the new rules of the Brazilian Tax Reform.

Stack: Java, Spring, Angular, TypeScript, RESTful APIs, SQL, Git

Full Stack Developer

Luizalabs (Magazine Luiza) | *São Paulo, SP* | Jul 2024 – Apr 2025 (10 months)

- Developed financial microservices in Java Spring Boot/MVC with JWT and Keycloak authentication, processing millions of daily transactions, and React/TypeScript interfaces for payment declarations (CPF, CNPJ).
- Acted as "firefighter of the week", resolving N3 support tickets and critical production bugs; achieved 100% code coverage with JUnit, Mockito, and SonarQube.
- Built RESTful APIs with Apigee/API Gateway (OpenAPI) and maintained data pipelines with Python, Apache Spark, and Apache Airflow, including repopulating the data lake from Oracle EBS.

- Optimized batch invoice processing with Virtual Threads (Java 21), cutting the import of ~100k records from several minutes to about one minute.

Stack: Java 21, Virtual Threads, Spring Boot, Spring MVC, Hibernate, Oracle DB, React, TypeScript, Jest, JWT, Keycloak, Microservices, Docker, Kubernetes, ArgoCD, Grafana, Airflow, Spark, Python, Apigee, GCP, Magalu Cloud

Full Stack Developer

PariPassu | *Florianópolis, SC* | Aug 2022 – Apr 2024 (1 year and 9 months)

- Architected and developed CLICQ, a food quality inspection system covering the entire supply chain (from producers to retail), with a Spring Boot backend and a React/Redux/TypeScript frontend, plus legacy versions in AngularJS, Angular 8/Ionic, and mobile in React Native.
- Built a churn prediction tool with Machine Learning (Python), accessible via a Discord bot, reducing customer churn by 18%.
- Acted as "firefighter of the week" preventing and fixing bugs with N2 support and Grafana monitoring; maintained automated tests (Jest, Mockito) with 90% coverage.

Stack: Java, Spring Boot, React, Redux, TypeScript, PostgreSQL, AWS (EC2, S3, RDS), React Native, Angular, Ionic, Jenkins, Machine Learning, Jira, jOOQ, Python, Swagger, Grafana

Full Stack Developer

Department of Public Safety | *Florianópolis, SC* | Oct 2020 – Jul 2022 (1 year and 10 months)

- Developed the Bem-Te-Vi App PWA in React and Leaflet, featuring an interactive map of nearly five thousand security cameras across Santa Catarina, with live viewing and recording downloads for state police officers.
- Maintained legacy public safety systems (Bem-Te-Vi and BRAVO) in PHP with LDAP authentication; integrated Elasticsearch for full-text search and RabbitMQ for asynchronous SMS processing of monitored license-plate events.

Stack: PHP, Laravel, React, JavaScript, Leaflet, PostgreSQL, Elasticsearch, RabbitMQ, LDAP, Selenium, REST APIs, Git, PWA

Junior Full Stack Developer

Canal Telecom | *São José, SC* | Feb 2018 – Nov 2018 (10 months)

- Developed reporting interfaces in PHP/JavaScript and automated tariff calculations with SQL triggers in PostgreSQL (-60% in invoice processing time); took part in a NoSQL migration from SQL to MongoDB.

Stack: PHP, PostgreSQL, MySQL, MongoDB, JavaScript, Linux, Zend, SVN

EDUCATION

Bachelor's Degree in Computer Science

Universidade Federal de Santa Catarina (UFSC) | Jan 2011 – Dec 2026 (*in progress*)

CERTIFICATIONS

DEVinHouse — Full Stack React & Java program (900h) — SENAI/SC, 2022

Professional, Emotional, and Technological Skills for Times of Change — PUC/RS, 2023

LANGUAGES

- **Portuguese:** Native | **English:** Advanced (fluent reading and writing, proficient speaking) | **Spanish:** Intermediate
