

Lucas Bueno Cesario

Full Stack Java developer — Spring Boot back-end, Angular and React front-end

Araruama, RJ, Brazil · remote (UTC-3) · lbc92@hotmail.com · +55 48 99122-4064 · linkedin.com/in/lucasbc92 · github.com/lucasbc92

SUMMARY

Full Stack developer with 7 years in the industry, 4 of them in Java with Spring Boot. I build and maintain critical systems — millions of financial transactions at Luizalabs, e-invoicing at Cast Group, Vivo's loyalty program — from the database to the UI in React or Angular.

HIGHLIGHTS

- Import of ~100k invoices cut from **over 10 min to ~1 min** by upgrading to Java 21 and Virtual Threads
- Financial microservices handling **millions of transactions a day** with **~95% test coverage**
- Customer churn cut by **18%** with a predictive model in Python

EXPERIENCE

Senior Full Stack Java Developer — Zukk Tecnologia, placed at Vivo/Telefónica

Nov 2025 – Jun 2026 · Remote

Vivo Valoriza, the benefits program inside Vivo's mobile app.

- Refactored the program's administration system: Java/Spring microservices, a NestJS BFF and React micro front-ends, with RabbitMQ messaging.
- Delivered through Spec Driven Development with AI agents (Cursor, Claude Code): specification and plan reviewed before any code was written.
- Full delivery cycle on Azure DevOps — Boards, Repos and CI/CD Pipelines.

Stack: Java · Spring Boot · NestJS · React · TypeScript · RabbitMQ · Azure SQL · Azure DevOps

Full Stack Java Developer — Cast Group

Aug 2025 – Nov 2025 · Remote

InvoiceCon, an electronic invoicing (NF-e) product.

- Worked on migrating InvoiceCon to the Brazilian Tax Reform rules, with Java Spring on the back-end and Angular 8 on the front-end.
- SAP integrations and client version upgrades under rigorous version control.

Stack: Java · Spring Boot · Angular 8 · TypeScript · SQL · SAP · Azure · GitLab CI/CD

Full Stack Java Developer — Luizalabs (Magazine Luiza)

Jul 2024 – Apr 2025 · São Paulo, Brazil

Magazine Luiza's financial systems team.

- Upgraded the JVM from 17 to 21 and rewrote the batch import of ~100k invoices with Virtual Threads: from over 10 minutes to about 1 minute.
- Financial microservices in Spring Boot handling millions of transactions a day, with JWT/Keycloak authentication and APIs published on Apigee; payment declaration screens in React.
- Weekly on-call rotation: critical production incidents and L3 (N3) support, with ~95% test coverage (JUnit, Mockito, SonarQube).

Stack: Java 21 · Spring Boot · Spring Data JPA · Oracle · React · TypeScript · Kubernetes · GCP

Full Stack Java Developer — PariPassu

Aug 2022 – Apr 2024 · Florianópolis, Brazil

CLICQ, a food quality inspection system covering the chain from producers to retail.

- Architected and built CLICQ: Spring Boot back-end, React/TypeScript front-end and a React Native app with OAuth2 login.
- Built a churn prediction tool in Python, queried through a Discord bot, that cut customer churn by 18%.
- Bug on-call and L2 (N2) support with Grafana monitoring; mandatory code review with two approvers before production.

Stack: Java 8 · Spring Boot · jOOQ · PostgreSQL · React · Angular · React Native · AWS

Full Stack PHP Developer — Santa Catarina Department of Public Safety

Oct 2020 – Jul 2022 · Florianópolis, Brazil

- Built the Bem-Te-Vi App, a React PWA mapping nearly 5,000 state security cameras, with live video and recording downloads for the police.
- Maintained legacy PHP/Laravel systems with LDAP, RabbitMQ messaging and Elasticsearch search.

Junior Full Stack PHP Developer — Canal Telecom

Feb 2018 – Nov 2018 · São José, Brazil

- Web reports in PHP/JavaScript, a SQL-to-MongoDB migration and Linux backup routines.

SKILLS

Back-end: Java 8–21, Spring Boot, Spring Data JPA, Hibernate, Maven, REST APIs, microservices, NestJS

Front-end: Angular, React, TypeScript, React Native

Data: Oracle, PostgreSQL, Azure SQL, MySQL, MongoDB, RabbitMQ, Elasticsearch

Delivery: Docker, Kubernetes, CI/CD (Azure DevOps, GitLab, Jenkins), Azure, AWS, GCP

Quality: JUnit, Mockito, Jest, SonarQube, code review, Scrum and Kanban

EDUCATION

Bachelor's Degree in Computer Science — UFSC (Federal University of Santa Catarina) · expected Dec 2026

DEVinHouse, full stack React and Java program (900h) — SENAI/SC, 2022

LANGUAGES

Portuguese (native) · English (professional: fluent reading and writing, proficient conversation) · Spanish (basic)
